Installation Diagram:

SL-2000 Series Duct Smoke Detectors

⚠ <u>NOTE</u>: *For remote accessories with a Trouble LED (yellow), a jumper wire must be placed between Terminals 20 and 15. The Trouble LED will illuminate when the detector cover is removed, or if the smoke detector head is removed and the cover replaced. Trouble contacts <u>CANNOT</u> be connected to a Fire Alarm Control Panel when using this option without the use of a slave relay.*

⚠ <u>NOTE</u>: *If duct smoke detectors are interconnected for common functions, please refer to unit installation guide for proper connection of remote alarm functions.*
